

Services Portfolio

A close-up photograph of a cock-of-the-rock bird. The bird has a bright orange-red crest and face, a white patch on its wing, and black feathers on its back and tail. It is perched on a thin brown branch against a blurred green background.

BIRDS OF THE ANDES: SAN AGUSTÍN

ABOUT US

Adha Anara Birdwatching - We are a company dedicated to specialized birdwatching tourism. We design each of our experiences to offer unique, enjoyable, and memorable tours, intended to allow visitors to fully appreciate the region's rich birdlife.

We work closely with local partners and birdwatching experts to provide clear information, well-planned routes, and professional guidance during each outing, guaranteeing a comfortable experience focused on observing birds in their natural habitat.

Diana Stefany Escobar

Biologist focused on environmental education and birdwatching. Passionate about Andean biodiversity, she has dedicated her work to creating educational birdwatching experiences for local and international audiences, integrating science, sensitivity, and nature tourism. Bilingual (Spanish-English), she combines her technical work with a human-centered perspective on the region. As a mother of two, she finds in motherhood a motivation to continue caring for and teaching about life.

Jordan Estivenson Chavez

Tour guide specializing in birdwatching. He accompanies national and international travelers on nature trails in the Andean region. Fluent in both Spanish and English, he facilitates clear and friendly communication with visitors. He has experience in interpretive tours and landscape observation. He offers safe, dynamic outings focused on responsible birdwatching. Passionate about birds and nature, he shares each route with knowledge and warmth.

TERMS AND CONDITIONS

1. Nature of the Activity

Birdwatching and nature tourism activities take place in rural and natural environments, so sightings depend on weather conditions, time of day, wildlife behavior, and ecosystem conditions. The sighting of specific species is not guaranteed.

2. Visitor Responsibility

Visitors agree to:

- Follow the guide's instructions at all times.
- Maintain respectful behavior towards wildlife, flora, and local communities.
- Not remove, feed, or handle animals or plants.
- Not play back bird songs or use drones without authorization.

3. Physical and Health Conditions

Visitors declare that they are in adequate physical condition to hike on nature trails. Any relevant medical conditions must be reported to the guide beforehand. The organization is not responsible for incidents resulting from failure to provide this information.

4. Inherent Risks

The visitor acknowledges that outdoor activities involve inherent risks, such as weather changes, uneven terrain, and the presence of insects or other wildlife, and accepts that they participate at their own risk.

5. Target Audience

The target audience (amateur, intermediate, or hardcore) will depend on the difficulty of the route and the bird species (common, endemic, target, rare, etc.) to be observed.

6. Weather and Itinerary Modifications

The activity may be modified, rescheduled, or canceled due to adverse weather conditions, safety reasons, or force majeure, always prioritizing the safety of the participants and the conservation of the environment.

7. Punctuality and Schedule

The visitor must arrive promptly at the agreed-upon meeting point and time. Delays may affect the itinerary without the right to rescheduling or a refund.

8. Personal Equipment

Each visitor is responsible for their own personal equipment (binoculars, cameras, cell phones). The organization is not responsible for loss or damage to personal belongings.

9. Photographic and Audiovisual Recording

During the activity, photographs or videos may be taken for promotional and educational purposes. By participating, the visitor authorizes the use of this material, unless expressly stated otherwise.

10. Conservation and Sustainability

The activity is conducted under the principles of responsible tourism. Any conduct that threatens the conservation of the ecosystem will result in immediate removal from the activity without refund.

11. Acceptance of Terms

Participation in the activity implies full acceptance of these terms and conditions.

BIRDWATCHING

NATURE RESERVE EL OSO - ON SUMMITS AND FOG

Description

Discover the diversity of the Andean forests in a private reserve with decades of protection. Along the trail, you can observe striking birds such as the Andean Tanager, the Crested Quetzal, and various species of Chlorophonia, as well as enjoy orchids lining the paths. Depending on the season, it is also possible to see the Andean Cock-of-the-rock. With a bit of luck, you might spot signs of or sightings of mammals native to the area, such as the Woolly Monkey, the Ocelot, or the Spectacled Bear.

Species of interest

Wattled Guan (*Aburria aburri*) - Cinnamon Flycatcher (*Pyrrhomystis cinnamomeus*) - Crimson-crested Woodpecker (*Campetherus melanoleucus*) - Flame-faced Tanager (*Tangara parzudakii*)

LA LLANARA - BIRD AND LANDSCAPE TRAIL

ADHA ANARA
BIRDWATCHING

Description

A route that combines the world of coffee with birdwatching. As you explore banana plantations, orchards, vegetable gardens, and forested areas, you'll see species typical of these productive landscapes and, depending on the season, sample local fruits. The tour includes walking through coffee plantations, learning about the coffee-making process, and enjoying its aroma and flavor, while discovering how birds are an integral part of daily life in these rural areas.

Species of interest

Lineated Woodpecker (*Dryocopus lineatus*) - Ash-browed Spinetail (*Cranioleuca curtata*) - Orange-crowned Oriole (*Icterus auricapillus*) - Rufous-browed Peppershrike (*Cyclarhis gujanensis*)
